SELECTED REVIEWS’ QUOTES:

- “[A] unique phenomenon on a number of accounts...realizing [Bach] in terms of what the flute does best...greater flexibility and fluency of Kat’s flute... Kat’s solo flute pieces...track the poet’s thoughts as perfect correlative, in beautiful sine curves of sound that enrapture and illuminate our minds.” By Phil’s Review, *Atlanta Audio Club*
- “... sound effects too abstract to describe contribute to the music. Extended playing techniques such as simultaneous singing and playing, air attacks with no tone, bending pitches, and glissandos are fundamental to the sound palette. The tone quality is great well centered, and deployed with much variety.” By Gorman, CD Review- *Guide to Records*,

American Record Guide.

- “Hypnotic Visual and Audio Event...”- by Uri Klein, *Ha'aretz*.
